

SIGMA LatAm: Bringing the Americas closing to iGaming

WHY SIGMA LATAM

Following the successful launch of SiGMA Europe (Malta) and SiGMA Asia (Manila), we're now launching the inaugural SiGMA LATAM, covering all three major timezones. The inaugural edition is set for September 22-24, 2020 with a virtual summit focusing on two themes: SiGMA LATAM for the Gaming industry and AIBC LATAM for the Emerging Tech industry.

SIGMA LATAM: In line with our commitment to cover the various gaming verticals and also bring the Americas closer to our delegates from Europe and Asia, we have curated an interesting agenda with a line-up of speakers made up of final decision-makers. The event will run from 14:00 – 17:00 CET // 9:00 – 12:00 GMT -3. [Explore agenda](#).

AIBC LATAM: AI, Blockchain, IoT, Robotics, and Emerging technologies are driving the digital age into the future. AIBC LATAM is a premium content and networking platform that provides an opportunity to learn from some of the brightest

minds of the industry, strike deals with the biggest brands, and engage leading suppliers.

We wanted to provide fresh content, to help you navigate through these turbulent times. If you're exploring Americas as a new frontier or wondering which tech solutions to embrace, we've got you covered: tune in on September 22-24, 2020.
